March 2018

BASIC PRESS INFORMATION

Audi at the Kaluga site

In 2017 Audi assembled the model Audi Q7* at the site in Kaluga, Russia. In the semi-knocked down (SKD) process, the automobiles are first fully assembled at Audi's plant in Neckarsulm, Germany. They are then partially dismantled before the SKD kits are transported by rail to Kaluga. Assembly is carried out by Volkswagen Group RUS in accordance with the technical and quality specifications of AUDI AG. Audi has been assembling SKD kits in cooperation with Volkswagen Group Rus at the plant in Kaluga since 2009.

The Volkswagen plant in Kaluga is approximately 170 kilometers southwest of Moscow. Since 2007, VW and Škoda models have been assembled here from completely-knocked down (CKD) kits. CKD assembly at the Kaluga plant comprises – as well as the assembly line – a paint shop, a body shop and since 2015 also local engine production. In the context of the localization strategy, the proportion of locally produced components has steadily increased in recent years.

In addition to CKD assembly, the plant also has an SKD assembly area. Not only the Audi models, but also other models from the Volkswagen Group are assembled here.

► **Facts and figures**

AUDI AG

Chairman of the Board of Management:	Prof. Rupert Stadler
Chairman of the Supervisory Board:	Matthias Müller
Employees (AUDI AG):	61,172
Employees (Audi Group):	91,231
Deliveries to customers :	1,878,100 automobiles of the Audi brand
Production:	1,879,840 automobiles (including Lamborghini and CKD)

(all data as of December 31, 2017)

Audi Kaluga site

Surface area:	approx. 4,000,000 square meters
Site:	Volkswagen Group Rus, Kaluga
Audi start of production:	2009
Models*:	Audi Q7
Production:	1,409 automobiles

(all data as of December 31, 2017)

► **Fuel consumption of the models named above***

Fuel consumption of the Audi Q7:

Combined fuel consumption in l/100 km: 7.6 - 5.5 *(30.9 - 42.8 US mpg)*
Combined CO₂ emissions in g/km: 199 - 144 *(320.3 - 231.7 g/mi)*

*Fuel consumption and CO₂ emissions figures given in ranges depending on the tires/wheels used. Further information on official fuel consumption figures and the official specific CO₂ emissions of new passenger cars can be found in the "Guide on the fuel economy, CO₂ emissions and power consumption of all new passenger car models," which is available free of charge at all sales dealerships and from DAT Deutsche Automobil Treuhand GmbH, Hellmuth-Hirth-Str. 1, 73760 Ostfildern-Scharnhausen, Germany (www.dat.de).
