

Lorenz Führlinger

Head of Development Chassis and Automated Driving

Lorenz Führlinger was born in Bruck an der Mur (Austria) on April 26, 1972.

While studying plastics engineering with a focus on physics, he wrote his diploma thesis in cooperation with AUDI AG in Ingolstadt. After graduating in 1998, he began his professional career at Audi as project coordinator for interior items from in-house production. He then held various positions in the development of interior equipment and seats.

He moved to Strategic Corporate Planning in January 2008 and to Audi China in Beijing in September 2010. There he first headed Strategy then the Research & Development Center in Beijing.

He returned to Ingolstadt in July 2014 and was responsible for technical project management for the D series. He took charge of project management for the Pre-Series Center starting in 2016. In April 2019, Lorenz Führlinger first took over operational control and then, in January 2020, became Head of Development Chassis/Automated Driving.
