

Ingolstadt 25 November 2004

The book about the triumphant Audi A4 DTM

After winning the Drivers', Manufacturers' and Teams' Championship in the DTM, the book detailing the Audi triple-victory in Europe's most popular touring car series is now available: "Audi A4 – DTM Champion 2004" reviews the successful return of Audi to the DTM on 112 full-colour pages. It describes all the phases of the A4 project from the new touring car's development via its test programme to the championship victory. In the book, written in both German and English, the most important personalities who made the Audi A4 DTM dream a reality have their say: The Audi Sport technicians, the team directors and the works drivers. Several previously unpublished photographs show the Audi A4 DTM as only a few have seen it up till now.

"Audi A4 – DTM Champion 2004" continues the series of books that documented the success of the Audi R8 at the 24 Hours of Le Mans between 1999 and 2002. It is published by Heel-Verlag and is available immediately at all good book stores for 29.00 Euro or online at www.racing1.de.
